A MODEL SHOE HOUSE.

Among the most striking evidences of the progress of Charleston is the rapid multiplication of new and handsome retail establishments on King street. Conspicuous among these is the bright and inviting shoe house of Lewis Elias & Co., which opens its doors today under the Masonic Temple, at the corner of King and Wentworth streets. The store is fitted up in a style that cannot fall to prove attractive to the public, and the enterprising proprietors pledge themselves that their stock shall in every respect be worthy of the store. They mean to keep up an assortment of boots and shoes that will enable every customer to be suited, and at the same time to keep down prices, so as to tempt every one that is suited to buy. All ready they have a range of novelties in their line from the tinjest doll shoe to the ponderous yet admirably made cavalry poot, which well repay inspection, and their array of ladles' and misses' fancy boots and slippers is positively bewildering. They open under fine auspices, and will, doubtless, do a thriving business.

PROBABLE DISASTER' TO A VESSEL-THE SCHOONER J. F. FARLAND .- The schooner Indax arrived here yester tay from Biltimore. She reports that on Tuesday last, off Cape Hatterss, fell in with a number of floating cotton bales and other wrecked material, a passing steamer being engaged in securing some of the floating cotton. The Index also picked up six bales and brought them to Charleston, which have on them the precise marks of a lot of cotton shipped by Mr. G. W. Amory, of our city, on the schooner J. F. Farland for Boston, which vessel cleared from here on the 24th of November and salled on the 25th. with two hundred and sixteen bales of cotton and three hundred and fitty tons phosphate rock. As the cotton was under deck it strong ly indicates that the Farland may have got ashore and gone to pieces. Further intelligenes will be looked for with interest.

ember 14, 1872. C. O. Trumbo, Secretary W. L. I. Rifle Club, Charleston, S. C .:

DEAR SIE-Your resolutions of October 15th touch me deeply. No one who has been long connected with the W. L. I. of old need be ashamed to acknowledge this. All of the former members will understand it.

The perpetuation of the spirit and influence of the old company, as we received it from the advance guard who preceded us, would be, in my opinion, to preserve treasures not always to be found in the high places of the Whatever this spirit and influence was, I

whatever this spirit and influence was, I feel as if I had lived in an atmosphere of it.

I saw it in the daily life of those who led the company when I was young. Their genlal sympathy, their kindly courtesy, their delicate sense of right, their nice ideas of honor, their earnest patriotism, were models for study worth far more than we can estimate.

Then, it was not one or two works of this kind for us to look up to and be formed by. There was no lack of them, they filled the company and gave to it its full tone and character. How have I noticed its influence on those younger, coming after me?

Was it the acquisition of military knowledge, or a call to Florida, it was always the same sure thing; and why? Because the work was put to it, and this was the spirit of the company. Neglect of duty would not have been tolerated in any one. CHARLESTON, November 10, 1872. To O. O. Trumbo, Secretary W. L. I. Rifle Club:

DEAR SIE-Permit me to acknowledge the receipt of your note, as secretary of the Washlegton Light Infantry Rifle Club, communicating a resolution of that body to me as an honorary member of the "Old Washington Light Infantry," that the honorary members of that ancient company "be respectfully in-vited to accept and assume similar honorary relations with the Washington Light Idiantry Rifle Club." Nothing could be more agreeable to all my feelings, as a man and citizen, and to all my leerings, as a man and curry, and all as a lover of my State and country, and all that bears the name, and is proud of the asso-ciation of the Washington Light Infantry. Let me add that I sympathize profoundly with the wise and patriotic feelings that have prompted this movement, and cannot but trust that the body you represent will long survive to emulate the example of the renowned company of which it is the successor; and in peace and in war to advance the best interests of our State and country, and be, in all respects, worthy of the great and good man whose name it bears.

Permit me, through you, to convey to the Washington Light Infantry Biffe Club my grateful sense of the honor done me, by their request to become thus associated with them.

A WORD FOR THE SHIVERING POOR.

The cold weather brings numberless calls for help to the good ladles of the Fuel Society, November 11, 1872. "Oranto" plantawhose power to aid the deserving poor, however, is limited by the amount of assistance they happen to receive from those who are blessed with enough to give. Those who gather around their ruddy fires and comfortsble hearths, should give a pitying thought to the hundreds in our own city who are shivering for the want of a bushel of coal, or a few logs of wood. The liberal and the charitable may feel assured that their bounty will be bestowed with all discretion, and only to those who sadly need it, by dispensing it through the Fuel Society. Contributions for the society may be sent to Fogartie's depot, or to the office of THE NEWS

THE CHAPMAN SISTERS.

"Little Don Glovanni" and Other Attractions at the Academy Monday Night.

Those vivacious favorites, Blanche and Ella. who were the stars of the first dramatic entertalnment ever given upon its boards, will reap pear at the Academy of Music on Monday evening, in the new and sparkling burlesque of "Little Don Giovanni," and in other amusing pieces. We are assured that the new company by which they are supported is one of special excellence in its line, as, indeed, may be said of every performance given, as this will be under the auspices of Manager John T. Ford. As the expected throng of Masonic visitors in the city will be sure to crowd the house, those who desire good seats will do well to secure them to-day.

THE HUMAN KITCHEN AND ITS DUMB WAIT-ERS .- The body is supplied with aliment by vessels which connect- the stomach and its auxiliaries with the venous; system, and, so to speak, perform the office of dumb waiters in a restaurant. In other words, these media of communication between the animal kitchen and its dependents supply to each member and organ, near or remote, the quantity and kind of sustenance required to keep it going. When the stomach is derelict in its duty, or the dumb walters inert or obstructed, it is the peculiar province of Hostetter's Celebrated Stomach Bitters to strengthen and regulate them. Hence its marvellous cures of chronic indigestion, and the emaciation, debility and languor which are generally its concomitants. It is, moreover, a powerful alterative and corrective, and the rapidity with which it checks irregularities of the liver and bowels, and braces and invigorates the nervous system, is a marvel, not only to the general public, but to professional men. dec3-tuths3paw

The Daily Bulletin says: Trade has been limited to a few jobbing parcels, aggregating 150 bags Rangoon at 7a7%c, and 25 tierces Carolina at 7%a5%c. The New York and Foreign Rice Market

From Messrs. Jackson & Till's Munthly Rice Circular: In consequence of the heavy arrivals of cargoes of cost, coming upon fully stocked markets, prices of soft grain have considerably declined during the pa-t month. The market, hitherto outefly supported by the large purchases for Liverpool account, backed by speculative buying, was not sufficiently strong to stand the rigna and sudden collapse in Liverpool, coupled with the offer of their cargoes here. Owing to this pressure prices rapidly receded 6d to 1s per owt from the highest point, leaving us at present at the lowest level of prices yet attained this season, the value of Rangion being 9s 6d ex ship, or 9s 6d continent, with a drooping tendency. The shipments have continued upon a large scale, and show a large increase still affoat over last year, whereas the increasing consumption and small stock in London are features favorable amidst the prevailing depression. In symps hy with soft grain, other kinds of rice have declined in value, white Bengal showing 6d to 9s, and Madras fully 6d fall. For next season's sulpments of the new crop some business has been done at 10s for Rangoon, continental terms, with sellers now at Tather less money. The quantity now affoat, as From Messrs. Jackson & Till's Monthly Ric crop some business has been done at 108 for Ran-goon, continental terms, with sellers now at rather less money. The quantity now affoat, as reported by mail, is 134,588 tons, against 67,252 tons last year, the stock here being 23,593 tons, against 41,990 tons.
